United States General Accounting Office Washington, D.C. 20548

Comptroller General of the United States
B-114871

July 22, 1986

To the Honorable George M. White Architect of the Capitol

Dear Mr. White:

Pursuant to your November 20, 1985, request and to section 5 of the act of July 6, 1961 (40 U.S.C. 174j-5), we have examined the balance sheets of the United States Senate Restaurants Revolving Fund as of October 5, 1985, and October 6, 1984, and the related statements of operations and changes in financial position for the years then ended. Our examinations were made in accordance with generally accepted government auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We completed our audit work on March 31, 1986.

In our opinion, the financial statements referred to above present fairly the financial position of the United States Senate Restaurants Revolving Fund as of October 5, 1985, and October 6, 1984, and the results of its operations and the changes in its financial position for the years then ended, in conformity with generally accepted accounting principles and the financial accounting policies described in note 1 to the financial statements, applied on a consistent basis.

This report contains our report on internal accounting controls and compliance with laws and regulations. Our report also presents the Fund's financial statements and accompanying notes for fiscal years 1985 and 1984

Sincerely yours,

Charles A. Bowsher Comptroller General of the United States

# Report on Internal Accounting Controls and Compliance With Laws and Regulations

We have examined the financial statements of the United States Senate Restaurants Revolving Fund for the fiscal years ended October 5, 1985, and October 6, 1984. Our examinations were made in accordance with generally accepted government auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures, including tests of compliance with laws and regulations, as we considered necessary in the circumstances. This report pertains only to our study and evaluation of the system of internal accounting controls and our review of compliance with laws and regulations for the year ended October 5, 1985. (Our report on internal accounting controls and compliance with laws and regulations for the year ended October 6, 1984, is presented in GAO/AFMD-85-46, dated July 12, 1985.)

The Fund is administered by the restaurants' management under the jurisdiction of the Architect of the Capitol As part of our examination, we made a study and evaluation of the system of internal accounting controls for the Fund to the extent we considered necessary to evaluate the system as required by generally accepted government auditing standards. The purpose of our study and evaluation was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the Fund's financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting controls taken as a whole or on any of the categories of controls identified below.

For the purpose of this report, we have classified the significant internal accounting controls in the categories of receipts, disbursements, receivables, inventories, and payables. Our study and evaluation included all of these control categories.

The management of the Fund is responsible for establishing and maintaining a system of internal accounting controls. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that (1) assets are safeguarded against loss from unauthorized use or disposition and (2) transactions are executed in accordance with management's authorization and are recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles and with the financial accounting policies described in note 1 to the financial statements

Report on Internal Accounting Controls and Compliance With Laws and Regulations

Because of inherent limitations in any system of internal accounting controls, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation, made for the limited purpose described in the second paragraph, would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting controls of the Fund taken as a whole or on any of the categories of controls identified in the third paragraph. However, our study and evaluation disclosed no condition that we believed to be a material weakness.

As part of our examination, we also tested the Fund's compliance with applicable laws and regulations. In our opinion, the United States Senate Restaurants Revolving Fund complied with the terms and provisions of laws and regulations for the transactions tested that could have materially affected its financial statements. Nothing came to our attention, in connection with our examination, that caused us to believe that the Fund was not in compliance with the terms and provisions of laws and regulations for those transactions not tested.

### **Balance Sheet**

#### Notes to Financial Statements

### Note 1. Significant Accounting Policies

The Revolving Fund's fiscal year consists of thirteen 4-week accounting periods. Periodically, an adjustment is made to the Fund's fiscal year to more nearly match the federal government's fiscal year-end.

The restaurant facilities are operated primarily for Senators and employees of the Senate. The Architect of the Capitol, under the direction of the Senate Committee on Rules and Administration, is responsible for managing the restaurants.

The financial statements do not include the cost of equipment, management personnel salaries, and miscellaneous expenses such as paper, cleaning, and laundry, which are paid from funds appropriated to the Architect of the Capitol These costs, as provided for under Public Law 92-51, were obligated from funds appropriated for Senate office buildings' operations, as follows.

#### Table 1: Costs Paid With Appropriated Funds

Fiscal year	Personnel compensation	Personnel benefits	Other services	Supplies and materials	Total
1985	\$622,473	\$68,127	\$132,208	\$225,753	\$1,048,561
1984	\$606,323	\$66,105	\$135,946	\$294,315	\$1,102,689

The Fund's statements also do not include certain benefits and services such as space, building repairs and maintenance, utilities, garbage disposal, and menus and forms printed by the Government Printing Office, all of which are furnished without charge to the Fund.

Cash receipts from sales and commissions are deposited in the U.S. Treasury to the credit of the Fund for use in operating the various restaurant facilities.

Inventories are valued at the most recent cost for similar food, china, glassware, silverware, and tableware items.

Unclaimed wages remain on the Fund's books and may be claimed for up to 6 years. Afterward, they are returned to the Fund.

#### Note 2. Accounts Receivable

Accounts receivable are billed, and aging schedules prepared, at the end of each month, whereas the balance sheet shows accounts receivable at the end of the 52-week period used for reporting purposes. The balance sheet amounts have not been aged. The accounts receivable balance at

September 30, 1985, the billing date closest to the end of the Fund's fiscal year, amounted to \$272,894—about 8 percent greater than the September 30, 1984, balance. Of this amount, \$51,952, or 19 percent, was outstanding over 90 days, compared with \$50,355, or 20 percent, at September 30, 1984. A comparison of customers' accounts receivable at September 30, 1985, and September 30, 1984, follows.

#### Table 2: Aging of Customer Accounts Receivable

	September 3	September 30, 1984		
Days outstanding	Amount	Percent	Amount	Percent
0 to 30	\$179,390	66	\$180,169	72
31 to 60	18,942	7	15,940	6
61 to 90	22,610	8	5,512	2
Over 90	51,952	19	50,355	20
Total	\$272,894	100	\$251,976	100

At December 31, 1985, 79 percent of the September 30, 1985, accounts receivable balance had been collected. The Fund's accounting office prepares collection letters monthly for delinquent accounts. In accordance with the policy direction established by the Senate Committee on Rules and Administration, the collection letters are mailed to selected customers whose accounts are delinquent over 90 days.

#### Note 3. Other Liabilities

Other liabilities include amounts for charity contributions withheld, court levy, and employees' physicals.

### Note 4. China, Glassware, Silverware, and Tableware

Additional government equity was provided when inventories of (1) china, glassware, and silverware valued at \$36,361, and (2) tableware valued at \$9,583, were established on July 1, 1967, and October 2, 1976, respectively. The equity account balance of \$45,944 will remain constant until adjusted to recognize additional contributions or the withdrawal of equity. The inventory on hand, however, will vary from year-to-year depending on the amount of loss from usage and purchases of new china, glassware, silverware, and tableware.

#### Note 5. Sales

A comparison of sales, commissions, and operating results for the various restaurant units during fiscal years 1985 and 1984 follows.

Table 3: Sales and Operating Income (Loss) By Unit

	Fiscal year	or 1985	Fiscal year	r 1984
	Sales and commissions	Operating profit or (loss)	Sales and commissions	Operating profit or (loss)
